LEAD 7100 H01 (16 week)	Intermediate Quantitative Research and Statistics EDBA Residency sessions TBD Meet with Instructor TBD	Joe Taylor

INFS 6000—Required Software

Students enrolled in INFS 6000 need **Windows version of Office**, specifically Excel and Access (for the database assignment). Mac machines do not support Microsoft Access. If you are living in Colorado Springs, you may visit one of our open [computer labs](#) on campus to work on your assignments. You may also contact the College of Business IT Department at cobit@uccs.edu or at 719-255-3368 to request to connect to VPN and remote access a Windows Lab machine that is on campus. Please allocate up to 1 hour to work with IT as home networks may be slow for the upload. Instructions to Remote Access to UCCS open lab computers are [here](#). Laptops may also be checked out for 24 hours or over the weekend.

COURSE DEADLINES

Course deadline dates can be found at <https://registrar.uccs.edu/course-deadlines>. Please be aware that 4-week (pre-term), 8-week courses and early start courses have different census dates than a regular 16-week semester course. You should also be able to find the course deadlines in MyUCCS portal. ***Courses dropped after the census date do not receive a refund and are assigned a “W” grade.***
