

CENTER FOR CYBERSECURITY  
RESEARCH & EDUCATION

# Data Privacy

Session 1: 6/26 – 7/15 Asynchronous 7/17 – 7/21 Synchronous and in person at UAH

Session 2: 7/24 / 8/11 Asynchronous 8/14 – 8/21 Synchronous and in person at UCCS  
(session 2)

This course provides an overview and knowledge of information security and privacy, researching and examining a variety of topics such as laws, management and privacy technology.

Participants will examine and research the multi-disciplinary field of data privacy and will learn and understand what privacy is and how privacy laws vary around the world.

Participants will also research the difference between privacy principles and privacy harms and the impact of decisions on individuals. Privacy data breaches and fines will be utilized as case studies for labs and assignments.

Participants will conclude the class with a data privacy research project to apply the concepts and information learned throughout the class.

## Course Outline:

- What is Data Privacy
- Privacy Harms and Privacy Principles
- Privacy Laws
- Privacy Governance
- Privacy Risk and Assessments
- Privacy Program Management (midterm)
- Privacy Engineering
- Privacy Enhancing Technologies
- Privacy Incident Response
- Privacy Reporting
- Privacy Fines and Careers
- Privacy Research Project (final)
